Michael & Rosemary Bottai

“Having limited options for our retirement prompted us to search for a better business opportunity. We were working extremely long hours, and Herbalife was the perfect opportunity at the perfect time. Our business has given us the ability to live our dreams, and we love having the freedom to travel. We just moved into a brand new home, and we’re able to spend quality time with family. Herbalife has allowed us the luxury of a solid business model with unsurpassed products. In this magical business, you can be successful at any age.”

Xiao Hong J. & Zhong C.

“After 12 years as a model in Canada, I found myself getting less work as I got older. When my husband and I moved to New York and started a family, I looked for a way to supplement our income, but I had no business background. What amazed me about Herbalife was hearing from Distributors who, like me, had no experience but whose businesses succeeded. When I took the products and experienced that Herbalife glow, I couldn’t help but get excited. With my husband joining me in the business, we’re spending more time as a family, traveling with our children and doing the things we want!”

Joe & Traci Halbmaier

“We were working around the clock and never had time to spend with each other or our family. Now we can take vacations, are able to be stay-at-home parents and work our business around our four young children. Thanks to Herbalife, we’ve even been able to give back to our church and community. Herbalife has given us financial freedom, and we are so thankful to have found this opportunity.”

Melissa M.

"I had always wanted to be a stay-at-home mom, so I started my Herbalife business with the goal of quitting my job as a collection specialist within a year. Just 13 months later, I realized that dream! No more long hours away from my husband and two children. Thanks to Herbalife, I'm there for my kids whenever they need me. And with my \$6,500-a-month income, we've been able to move into a new house and renovate. I'm even traveling now—which is amazing, considering that before Herbalife I'd never even been on an airplane!"

Joseph M., III

"When I was introduced to Herbalife, I was skeptical. Then, years later, I realized that even though I had a great career as a UCLA professor, peak-performance coach and author, I had no residual income or retirement savings. What if I lost my job or got hurt? Terrified, I gave the opportunity a look and was intrigued. Regular people could run this business. Putting in just part-time hours at first, I grew my business consistently. Now, while earning \$25,000 a month with Herbalife, I get to do all the things I love: play music and ride my motorcycle!"

Surjit & Satwant Takk

"In February 1999, we were introduced to Herbalife® products. We attended an STS and learned about the business opportunity. Five months later, we went to our first Extravaganza. We attended all of the events and qualified for all of the promotions. We qualified for Global Expansion Team one year into the business. Now we're able to go on an annual vacation with our family. Our eldest son Harkirat is a GET member, and our daughter Amanjit is a Millionaire Team member. Even our youngest son Dayaveer is a Millionaire Team member."

“We went from bankruptcy to being set for life!”

“When we found Herbalife, we were in financial ruin. Due to our wholesale jewelry business, our total debt was over \$500,000 and we were forced into bankruptcy. We were 7 months behind on our mortgage and finally evicted from our home. We needed a chance, so we really embraced this opportunity when our friend told us about it. Caroline earned money in our first week. That was amazing! She went to a training and learned how to build the business. Her first month, working part-time, Caroline made about \$3,000. Wow! And thanks to the excellent, step-by-step training and mentors we are currently earning about \$14,000 a month. We are living in a brand new house, driving a new H2 Hummer and traveling the world! Today our monthly income is what Caroline used to earn in a year working in a dental office! We are more excited about this business than ever because of the huge growth in the industry and in the incredible opportunity for new people getting started today!*

“We travel the world overseeing our business.”

“Ever since I was a kid, watching my parents become wealthy as Herbalife Distributors, I knew that someday I’d be a part of this wonderful company. After finishing college, I turned my full attention to growing my Herbalife business and was soon fortunate enough to find a great partner, my future wife Mamie. When we met, Mamie was working as a nurse. She was so impressed with the products that she left her job to work Herbalife full-time with me. Our hard work has paid off. Today, we travel the world—overseeing our thriving, international business, meeting wonderful people and earning an incredible income along the way!”

“It’s the power of Use, Wear, Talk that’s kept us going. “

“You need to get on the products. When you look good, you feel good, and when you talk to people about the products and the business, it makes it easier to show people that you can help them look and feel better, too. We’re in better health than we were in our 40’s. We are more excited about this business potential now than we have been in the whole 20-plus years we’ve been in the business. This company is going to surpass even what Herbalife founder Mark Hughes dreamed possible, and we’re thrilled to be a part of it.”
